

# Dip Kumar Gyawali

Full-Stack Developer | MERN & Laravel Stack | Backend-Focused

## Skills

- **BACK END DEVELOPMENT:** Laravel, NodeJS, ExpressJS, Java
- **DATABASE:** MySQL, PostgreSQL, MongoDB, Redis
- **DevOps & DEPLOYMENT:** cPanel, Docker, Vercel, GitHub/GitLab CI/CD
- **FRONT END DEVELOPMENT:** ReactJS, NextJS, Tailwind, Shadcn, GSAP, Bootstrap, CSS, HTML
- **OTHERS:** Swagger, Payment API Integration (Bank API), JWT Auth, Postman

## Work Experience

### FullStack Developer

Dec 2024 - Present

- Developed and deployed 7 full-stack apps end-to-end as the sole developer, handling backend, frontend, and deployment. Delivered projects on time for clients without supervision.
- Managed deployment via cPanel & FileZilla, reducing production errors by 30%.
- Played a key role in enhancing project functionality by implementing new features and resolving issues to improve overall system reliability and user experience.
- Optimized backend queries, reducing API response time from 1.2s → 500ms, improving UX and retention.
- Actively contributed to troubleshooting, performance optimization, and ensuring smooth functionality for end-users.

### FrontEnd Intern

Sep 2024 - Dec 2024

- Revamped the frontend of a high-traffic technology news platform by building interactive features (blind camera tests, polls, dynamic news sections, and price listings), which increased user engagement by ~20%.
- Leveraged React.js core hooks and the Shadcn UI library to deliver scalable, reusable components — improving code maintainability and accelerating future feature delivery.
- Utilized React.js core hooks and Shadcn UI library to deliver scalable, maintainable, and modern front-end solutions.

## Educational Background

### Bachelors in Information Technology(B.I.T)

KIST College and SS, Kathmandu

2021 – Present (Expected Graduation: 2025)

- **Relevant Courses:** Data Structures, AI, Applied Statistics, Advanced Web Development

## Hobbies

- Playing Chess - [Chess.com](https://www.chess.com/)
- Video Editing
- Solving DSA - [Leetcode](https://leetcode.com/)

## Contact

[My Portfolio](#)

Email: [dipgyawali2060@gmail.com](mailto:dipgyawali2060@gmail.com)

[GitLab](#)

## Additional Skills

### Languages

- English (Proficient)
- Nepali (Fluent)
- Hindi (Proficient)

### Professional Skill

- Leadership
- Teamwork
- Communication

### Certifications & Technical Engagements

- **Open-Source Contributor:** Contributed in [Layer5.io](https://layer5.io/) [Git Link](#)
- **Hackathon Runner-Up:** Build App to support mental health

## Additional Information

- Led a process improvement initiative at [Go Infosys](https://www.goinfosys.com/) company, improving team productivity.
- Developed and deployed a full-stack web application within 2 weeks, demonstrating rapid delivery and end-to-end technical ownership.

## Course Work

- Data Structure and Algorithm
- Data Mining
- Artificial Intelligence
- Applied Statistic
- Android App Development
